

REMARKS

The Examiner has pointed out various indefinite clauses in claims 1-7, all of which have been corrected. As to the change to claim 3 regarding the phrase, "active for a time sufficiently long ...", this phrase has been eliminated in favor of a "predetermined" time which should be interpreted in accordance with the teachings of the specification at page 12 regarding the operation of state machine 66 and timer 70.

With respect to claim 4, "high power" has been removed because the specification regarding Figure 6 teaches low power but either low power or high power can be used.
